Dear Parents/ Carers

Welcome to Week 3.

General permission notes and health care updates were sent out in Week 1. It is important that these notes and forms are returned promptly so your child can access community programs throughout the year.

Could I also ask that student items and clothing be labelled to reduce confusion, especially when packing bags at the end of the day.

Please visit our website to keep up with what is going on at Lakeside. It is constantly being updated with student and class items and some informative links which may be of assistance.

We are yet to determine a date for our P&C Meeting but I will let you know as soon as possible.

Wishing you all the best.
Darren Barnett
Principal

School Reminders ~ 2016

- Community Access is again set this year at $20.00 per term. This amount helps keep our buses on the road. It allows all our students to have access to the wider community for shopping, sporting activities and attending out of school events.

- School Fees are $44.00 per year. These fees are put towards classroom supplies for our students.

- Classes have sent out individual notes regarding costs for their cooking program.

- A reminder also that payments to school can now be made via a new online payment portal which is linked to our school website. Please visit our website and select the “Make a payment” tab on the home page.

- Please phone the school if you have any enquiries regarding your account.

We wish to remind parents of our Sick and Recovering Student Policy.

Every possible precaution is taken throughout the school to minimise cross infection of both staff and students. Please keep an eye on your child for signs of vomiting or diarrhoea and keep them home if showing signs of sickness.

What this means to you? It means that if your child has been ill with high temperatures, an infection (chest, throat, production of mucus); vomiting or diarrhoea that they be kept at home for 24-48 hours after the last episode. As you are aware, we have students who have fragile health concerns and we hope to minimise cross infection to everyone. It is most beneficial to the sick or recovering student to be well rested and cared for, so they can return to school and function to their full capabilities.

We thank you for your co-operation in the implementation of this policy. If you would like to refer to our ‘Sick and Recovering Student Policy’ the wording can be found on our Website: www.lakeside-schools.nsw.edu.au
